34b, Oliyide Street, Ojokoro Ijaiye, Lagos. Nigeria.

I am a frontend software engineer with over 3 years of professional software engineering experience with strong fundamentals in JavaScript, React, HTML5, and CSS3. I possess a very good understanding and application of data structures, algorithms, and design patterns while developing and validating quality React-JS and React-Native applications in production. I am very passionate about creating solutions with seamless IXD experience that excites customers and enable users to achieve their objective in the best way possible, which inspires me to contribute to the development of the World Wide Web and quality web and mobile services.

PROFESSIONAL EXPERIENCE

ITSkillsCenter, Lagos

Feb, 2022 - November, 2022

● Built a single-page web application that has a blog section, an e-commerce section, and an admin user dashboard using HTML5, React-JS, and Tailwind-CSS. I also used Strapi.io to authenticate users by connecting and utilizing the required end points. blog-and-shopping-store.vercel.app

● Collaborated with a team of developers to design a cross-platform mobile application for a housing, and real estate agency using React Native, Expo CLI, and Strapi.io.

https://github.com/chimaux/Flatmate

● Using customer feedback and user metrics to ship better user experiences and quick resolution to customer feedback.

Aremxyplug, Kaduna

November, 2022 – PRESENT

● I collaborated with a team of seasoned professionals to develop a cutting-edge web application designed for various types of monetary transactions. Leveraging my exceptional

ReactJS and JavaScript expertise, I played a pivotal role in the successful implementation of the project. Through meticulous coding and innovative problem-solving, I ensured that the application delivered a seamless user experience and adhered to the highest industry standards.

Working in tandem with my team, we incorporated state-of-the-art technologies and industry best practices to create a robust and secure web app. By employing efficient coding methodologies and optimizing performance, we were able to develop a scalable solution that could handle high volumes of transactions and user interactions flawlessly.

The result of our collective efforts is a web application that is projected to generate impressive annual revenue of $130,000. This accomplishment serves as a testament to our team's exceptional skills and dedication to creating impactful digital solutions.

EDUCATIONAL EXPERIENCE

Imo State University, Owerri — B.sc, Computer Science.

SEPTEMBER, 2013 – AUGUST, 2017

Bachelor of Science in computer science with a focus on software engineering and software systems design.

TECHNICAL SKILLS AND SOFTWARE TOOLS

Programming Languages and Frameworks

- HTML/CSS/Tailwind
- JavaScript/Typescript
- ReactJS/React Native/Node
- Expo CLI/Groq
- SQL/Redux/Cloud Firestore/Strapi

Technical Productivity and Design Software

- Git/NPM/
- Figma
- Github
- Sanity
- Jest/Mocha
